## Work Experience

### Mandolin

#### Full Stack Engineer

(Remote) Indianapolis, Indiana

October 2020 - Present

- Currently building the digital platform designed to help artists, venues, and fans connect through live music.  
If you're reading this now that means I did not send you my resume, and I'm sorry to report that I am not looking for a new position. My work is the intersection of my two passions - music & technology. I am passionate about what I do, and I love my team. You cannot take me away from this. Check us out at <https://mandolin.com>

### Hyland Software Inc.

#### Developer 2 | Mobile Team

Westlake, Ohio

September 2019 - October 2020

- Released mobile applications that leverage modern technologies such as FaceID on iOS to over 20,000 lifetime customers  
- Developed the front-end hybrid mobile strategy for user authentication including biometric authentication  
- Implemented a single hybrid mobile application to replace the company's current suite of mobile applications across iOS and Android

### Hyland Software Inc.

#### Scrum Master | Hybrid Platform Team

Westlake, Ohio

March 2019 - October

2020

- Lead daily stand-ups, scrum ceremonies, and product demos  
- Improved team velocity by working with Product Owners to groom and prioritize the backlog of work  
- Reduced time to complete issues by tracking work and facilitating communication among teams within Hyland

### Hyland Software Inc.

#### Developer 1 | Hybrid Platform Team

Westlake, Ohio

June 2018 - September 2019

- Developed technologies on an international team to empower web applications to leverage the native capabilities of iOS and Android devices  
- Implemented a hybrid web interface layer to send and receive communication between WebViews and native mobile devices

### Hyland Software Inc.

#### Software Development Intern | Mobile Team

Westlake, Ohio

Summer 2016 & 2017

- Developed a native iPad application for the Cleveland Metroparks Zoo  
- Implemented Force Touch features on an existing iOS application used by thousands of customers  
- Lead research for hybrid mobile app development as a potential new strategy for Hyland

## Education

### John Carroll University

B.S. Computer Science

University Heights, Ohio

May 2018

Cumulative GPA: 3.72/4.0

Awards: Dean's List: 4 Years, Academic Achievement in Computer Science
